

# OVERVIEW

## Oracle Health (Cerner) Services

### Transformation with Oracle Health: Proven Strategies for Better Outcomes and Scalable Growth

#### Why CereCore International?

- + Backed by decades of healthcare IT operational experience, including managing large-scale EPR environments across multiple regions.
- + Deep understanding of Oracle Health (Cerner) architecture, workflows, and upgrade pathways.
- + Proven methodologies for system rationalisation and optimisation.
- + Flexible service models: fixed-scope, fixed-fee, or managed services.
- + Hands on experience working with Millennium, CommunityWorks, and HealtheIntent programs.

ORACLE

Partner

As an Oracle Partner Network member, CereCore International accelerates healthcare transformation with services that align your investment in Oracle Health with your goals, delivering measurable improvements in efficiency, scalability and patient outcomes.

Leveraging decades of healthcare IT leadership, we optimise Oracle Health (Cerner) environments to reduce complexity, improve clinician satisfaction, and strengthen the connection between technology and patient care.

#### Let's Simplify and Strengthen Your Oracle Health Ecosystem

Whether your focus is on optimising Millennium, preparing for Oracle Cloud Infrastructure, or improving interoperability across your digital landscape, our team is ready to help you make measurable progress.

#### End-to-End Services

We deliver pragmatic, cost-effective solutions that help you focus on what you do best – **providing care.**

#### Application Managed Services (AMS)

Reduce complexity and cost with scalable AMS models that deliver predictable performance and staffing flexibility.

#### Financial Process Optimisation

Streamline workflows, reduce denials, and improve revenue integrity through targeted configuration and analytics.

#### Implementation, Optimisation, and Consulting

From strategy to go-live and beyond, we provide lifecycle support that accelerates adoption, minimises disruption, and ensures long-term value realisation.

#### Our Expertise

Our team has hands-on experience across Millennium, CommunityWorks, and HealtheIntent, delivering comprehensive services that drive adoption, reduce risk, and accelerate time-to-value. By combining technical precision with clinical insight, we ensure Oracle Health investments translate into measurable operational gains.

#### Integration and Interoperability

Enable seamless data exchange through FHIR/API, HL7, and third-party integrations—supporting compliance and improving care coordination.

#### Reporting and Analytics

Unlock actionable insights with advanced dashboards and governance models aligned to executive priorities—driving informed decisions and measurable outcomes.

#### Training and Adoption

Role-based, workflow-specific training that boosts utilisation, enhances clinician experience, and maximises ROI.
